Required Competencies (*performance objectives*) **for Articulation:**

Students will be able to achieve the following measurable goals upon completion of the course:

- demonstrate practices
- describe home health aide – homemaker service
- describe role of the home health aide – homemaker
- describe care of newborns & children
- describe care of the chemically dependent family
- describe care of the mentally disabled
- describe responsibilities to client and family within the established care plan
- demonstrate accurate recording and reporting of observations and activities
- demonstrate maintenance of a clean healthy environment
- identify appropriate role and tasks of the homemaker
- teach performance of basic housekeeping skills
- identify methods of time & energy conservation while providing services
- identify resources within the client family
- describe available community resources

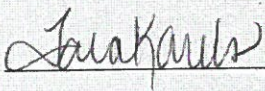

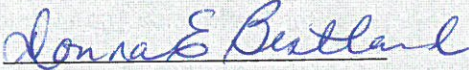

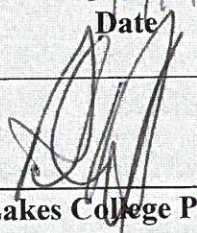

Examples of Measurement Methods *(include any industry certification or licensure)*

Student performance objectives and exams will be translated to points and the points to grades. The accumulated points divided by the total possible points equal percent for the quarter. A=94-100%, B=87-93%, C=80-86%, D=74-79%. The exam will be a 50 point paper and pencil exam. Minimum acceptable grade for this class is C.

Sample Textbooks and/or Other Support Materials *(including software):*

2009 Home Health Aide work book required.

This agreement is exclusive with Central Lakes College and no assurance is given that college credit awarded through this agreement will transfer to any other postsecondary institution.
