Individual colleges may require demonstration of knowledge and/or skills.

Assessments:

Students must achieve no less than 80% or B for a final grade in the high school course to receive ACC.

Methods may include but are not limited to:

- Laboratory reports and/or quizzes
- Objective and/or subjective tests and quizzes
- Course assignments
- Group work/projects
- Course participation

ACC Concept:

Through Articulated College Credit (ACC), specific college curriculum content goals and assessments are embedded in participating high school career and technical education (CTE) programs as specified in this agreement. Relevant knowledge, skills, and standards are taught by qualified CTE high school instructor(s) in one or more high school course. ACC is awarded if the student meets the college equivalency standards and later enrolls in the college(s) listed below requiring the course in a specific program.
